JUSTIFICATION

The amendments to the Company's Articles of Association as regards the authorization for the Management Board to increase the share capital within the authorized capital are associated with the expiration of the current authorization. The expiration of previous authorization arises from the end of a three-year period determined in Par. 11a of the Articles of Association in its current wording. In accordance with the provisions of the Commercial Companies Code the authorization for the Management Board to increase the share capital within the authorized capital may be granted for the period not longer than three years. Therefore, the proposed amendment is aimed at maintaining the existing solutions regarding the authorized capital.

In the Management Board's opinion the maintenance of the Management Board's authorization to issue new shares within the authorized capital is in the interest of the Company. This instrument allows the Board to react flexibly to the capital needs of the Company and allows acquisitions by issuing new shares. For the same reason the authorization includes the possibility to issue subscription warrants, which are the instrument for achieving the above objectives. In connection with the amendment to the Articles of Association, the adoption of consolidated text of the Articles of Association by the General Meeting shall be justified.

In accordance with the provisions of the *Best Practices of WSE Listed Companies*, the draft resolutions No 34-36/2011 of the Extraordinary General Meeting of LSI Software S.A. convened for 28 July 2011 do not require the justification as they are the resolutions on organizational and formal matters. These resolutions are typical resolutions adopted during the General Meeting in accordance with Art. 395.2 of the Commercial Companies Code.
